EDUCATION

Utah Tech University - St. George, UT | Bachelors of Science

Mechatronic Engineering

Utah Tech University - St. George, UT | Associates

Pre-Engineering, May 2023

SKILLS

PLC Programming: Ladder Logic & Structured Text

Beckhoff TwinCAT 3

Group I/O & Ethernet Communication

Industrial Wiring & Troubleshooting

Teaching & Lab Safety

Problem-Solving & Teamwork

FANUC, Yaskawa & Universal Robots

FANUC ROBOGUIDE Offline Programming

C#, C++, SQL, Python & HTML

Fusion 360, SolidWorks & AutoCAD Electrical

CNC & CAD/CAM

Attention to Detail

WORK HISTORY

Visiting Instructor of Practice

April 2026 – Present

Utah Tech University, Industrial Robotics

- Helped develop a new Industrial Robotics curriculum; restructured it to teach static and inertial forces, I/O, and Ethernet communication
- First instructor to introduce FANUC ROBOGUIDE into the curriculum, giving students offline programming and virtual workcell experience
- Helped develop a PLC trainer (AutomationDirect P1000 + FANUC LR Mate 200iD, CRMA58 terminal blocks) teaching group I/O, digital logic, and Ethernet
- Teaching MTRN 2200 and MTRN 2205 (industrial wiring and troubleshooting); implemented lab safety protocols for student use of robots
- Pursuing FANUC CERT Instructor Certification through FANUC America

Automation Technician

March 2026 – April 2026

IME Automation

- Gained hands-on skills in end-of-arm tooling and robotic material handling; contributed to an automated system project from development through completion

Automation Engineering Intern

Aug 2024 – Sept 2025

Baxter Aerospace

- Developed the HVX (High Voltage Automated Test) system for aerospace wire harnesses, with PLC control for sensor data collection and process automation
- Programmed Yaskawa, FANUC, and Universal Robots to automate manufacturing processes
- Created C# WPF applications linked to SQL databases for MES work instructions

Maker Space Intern

August 2022 – May 2023

Innovation Plaza, Utah Tech University

- Trained users on laser engravers, CNCs, and 3D printers; installed E-stops and circuit breakers; lead operator of the Stinger CNC

PROJECTS AND CERTIFICATIONS

- **Lovesac Material Dispensing System (Senior Capstone):** designed the HMI, ladder logic, and enclosure wiring
- **Certifications:** FANUC HandlingTool (May 2026); Beckhoff TwinCAT 3 (May 2024)
